

Longwick-cum-Ilmer

Parish Emergency Plan

Plan last updated on January 2021 [Version 3.2]

Nearly all emergencies affecting communities will be dealt with routinely by joint response of the emergency services, local authorities and the major utilities. However, there may be occasions when circumstances, such as storm damage or deep snow, delay the arrival of outside assistance, and the community will need to help itself.

This Plan aims to provide a framework to cope with emergencies affecting the Parish and community of Longwick-cum-Ilmer, when outside assistance from the emergency services and local authorities is delayed.

The main objective of the Plan is to establish an Emergency Management and Activation Team that can:

- ❑ Identify the risks to the community and take action to mitigate them
- ❑ Identify vulnerable people in the community and develop plans to assist/protect them
- ❑ Identify resources in the community available to assist during an emergency
- ❑ Provide key contact details for the Emergency Management and Activation Team, Key Community Resources, the Emergency Services and Local Authorities

The secondary objective is to reasonably regularly review the plan and amend it to bring it up to date.
