

# Maggie's Solar Farm

## View the proposals for a new solar farm

### We want to hear from you

Low Carbon is introducing proposals for a new solar farm, situated just south of Ford, to be known as Maggie's Solar Farm. The solar farm will be sited within the Parish of Dinton-with Ford and upton and Aston Sandford.

We are very interested to hear the views of the community, however, due to the current health risks associated with COVID-19, public drop-in events are not appropriate. Therefore we are asking you to give us your views via our consultation website and to learn more about the proposal. The website is available from Monday 22nd March for 3 weeks. Alternatively please contact us via our freephone information line or project email.
